

## Attendance

This page displays a record of the student's attendance entries for the current school year. A teacher or attendance secretary at the school, generated the attendance entries. Entries of concern should be discussed with your child before calling the school.

## Assignments

Assignments are scored classroom tasks, such as homework, quizzes, exams, etc. Once a teacher defines, organizes, and scores their class assignments, the student assignment data will be viewable to ParentConnection users.

There may be times when you do not see scores for a particular assignment. Please allow a few days for teachers to enter their scores.

## Marks

This screen will list all Progress Report and Report Card marks that have been posted for the students in the current school year. You may view the information *by term* or *by period*.

## Transcript

The complete history of marks and credits earned at middle school or high school for the selected student, since the beginning of enrollment, is displayed in this screen. You may view all transcript records or current school transcript records. You may also sort the transcript view by subject or date.

## GPA

This page profiles the complete history of the student's grade point average at middle school or high school for each mark reporting term, including their class rank and class size. The cumulative grade point average is also shown as each term is reported. The data is sorted in reverse chronological order by Year (ending year of a school year is indicated). Different GPA types are displayed in separate tables.

## Cafeteria

If deposits are made into the cafeteria system, this page will display your student's balance and the types of items purchased.
