

October 6, 2016

Dear Parent/Guardian:

The district is aware of concerns brought to us by students and parents about clowns. We are also aware of news media and social media postings about concerns of threatening information about clowns visiting schools or planning to visit schools.

Please know that we take each and every concern for school safety very seriously, and that we work with local law enforcement regarding the safety of our students.

Despite the various reports, at this time there has been no verification of clowns at or near our schools by the district or local police. Be assured that we have procedures in place to manage safety concerns and that these procedures are practiced regularly.

Thank you to all the students and parents who have brought these concerns to our attention. We will continue to monitor the situation in cooperation with police.

If you have questions or concerns, please feel free to contact your school principal or my office.

Sincerely,

A handwritten signature in black ink that reads 'Michele A. Harmala'.
